KHATIJA SHAIK

Kodad, Telangana | 9912986996
shaikkhatija9999@gmail.com | LinkedIn | GitHub

Professional Summary

Motivated Frontend Developer and ECE undergraduate with hands-on internship experience in full-stack frontend workflows, responsive web design, and Python programming. Proficient in React.js, JavaScript (ES6+), HTML5, CSS3, and SQLite. Demonstrated technical problem-solving skills through academic projects in MATLAB image processing and hardware-software automation. Eager to contribute clean code and scalable solutions in an entry-level software engineering role.

Skills

Tech Skills

Languages: JavaScript, Python
Frontend: HTML5, CSS3, React.js
Backend: Python programming fundamentals
Database: SQLite
Tools: GitHub, VS Code

Soft Skills

Adaptability | Teamwork | Problem Solving | Communication | Attention to Detail | Time Management

Projects

Brain Tumor Segmentation and Boundary Detection
Technologies: MATLAB, Image Processing

- Engineered an automated image processing pipeline in MATLAB to analyze and segment brain MRI scans.
- Applied grayscale conversion, contrast enhancement, and noise reduction filters to improve MRI visual clarity .
- Implemented threshold-based intensity segmentation algorithms to localize tumor regions and trace precise perimeter boundaries.

Footstep Power Generation with Automatic Garden Watering System
Technologies: Embedded Systems, Automation

- Designed a dual-purpose green technology system harnessing kinetic footstep energy for electricity generation and storage.
- Integrated automated sensor logic to utilize stored energy in a micro-irrigation network, optimizing water efficiency and plant care.

Education

B.Tech in Electronics and Communication Engineering 2022-2026
Anurag Engineering College, Kodad **90%**

Intermediate, Board of Intermediate Education 2020-2022
Suguna Junior College, Kodad **97%**

SSC, Board of Secondary School Education 2019-2020
St. Joseph's CCR Vidhyanilayam, Kodad **100%**

Internships

Frontend Development Intern *Elbert Technologies*

- Gained practical experience building interactive web user interfaces using HTML5, CSS3, and JavaScript.
- Developed modular, reusable UI components with React.js and managed cross-browser responsiveness.

Python Programming and Development Intern *Innovate by Hexaind*

- Mastered Python core fundamentals, data structures, object-oriented programming, and scripting.
- Executed database operations and queries using SQLite for backend data storage and retrieval.

Certifications

- Generative AI and Agentic AI Training – EXCELR.
- Innovation Coach Certification – Soham Academy.

Achievements

- **State Competitions:** Participant, State-Level Viksit Bharat Youth Parliament Elocution Competition.
- **Academic Awards:** First Prize in English Elocution and Poster Presentation at College Annual Fest.
- **Science Recognition:** District-Level Appreciation Certificates, National Children's Science Congress (2016, 2017).

Additional Information

Languages: English, Hindi, Telugu
Interests: Drawing, Carroms, Singing
